ADDITIONAL EQUIPMENT & INFORMATION

Floor carpet (approx. 120cm x 160cm) for guitar and another one (approx. 160cm x 200cm) for drums on the stage

STAFF

We will need a qualified sound engineer, stage technician and lights technician.
The band does not travel with an own sound engineer.

SOUND & LIGHTING

We prefer an overall natural sound with minimal processing and effects. The drums need not have clicky attack sounds, please use gates only when unavoidable and with great care.

Lighting can be discussed during soundcheck, it is important though that during the show there is always sufficient light for the bass and guitar players to see the fretboard of their instruments. Please do NOT use fog and do NOT use stroboscope effects.

EQUIPMENT SHARING & SOUNDCHECK

The drummer always plays his own drumset and will not share his drums with the other bands.

We will need an absolute minimum of 45 minutes soundcheck, 60 to 90 minutes including setup would be perfect.

ARRIVAL

Please provide detailed directions in German, English or Italian language two weeks before the date of the show with the complete address of the venue and a telephone contact.

We need a safe parking space available for the van close to the venue. Please provide arrival, soundcheck and doors-open and on-stage times. The promoter or another person should be at the venue at arrival time
